

## ISG... 'Knocks it Out of the Park'...with MLB

The Installation Service Group ([iSG](http://www.isg.cc)), based in Orlando, Florida has completed an artwork installation in the new Miami Marlins Park Facility.

Marlins Park, the new home of the Miami Marlins, is a 37,000-seat Major League Baseball facility that offers a retractable roof that will forever change the summer time baseball experience for fans in South Florida.

Working in conjunction with Sports & The Arts, ISG installed over 500 pieces of unique art, photography, and sporting imagery that celebrates Miami's baseball history.

This is the second sports complex project in as many years for ISG within the Florida market; having completed an art installation in the Amway Arena, home of the Orlando Magic, in Orlando, Florida in 2011.
